launches the Golden Jubilee Celebrations
on 13 Jan 2003 at New Delhi

Dear Alumni,

I am delighted to note that the IETE Alumni Association has been registered and is functional as an independent entity. It is hoped that the Alumni Association will be now creating land marks in meeting and sharing the experiences of the Alumni Members who graduated from our Institution and are now placed in reputed organizations. An Alumni Member is a source of strength for the Institution who can guide the young ones, thereby creating a bound of intellectual relationship. IETE in its glorious existence of past 60 years has produced large number of Engineers who have contributed immensely to the industry both in India and abroad.

I am happy to learn that the IETE Alumni Association has brought out first Volume of the Directory of its Members. It also contains the list of some of the very well placed IETE distinguished Alumni all over the country, endorsing our commitment to recognize our Alumni as a respected and integral part of the Institution. The IETE Alumni Association is working to develop ways and means to involve and communicate with all its Alumni and would like to tap their expertise. I personally wish that IETE Alumni should be frequently invited to the IETE Centres to help existing IETE students to benefit from their experience and knowledge. IETE Alumni Association needs to be projected as a consultative body for the industries, Government and academic institutions to benefit from the huge talent pool it consists of. I hope the Association continues to focus much of its future effort on Alumni growth.

Over the previous years, IETE Alumni Association database has grown. We have an active website to facilitate effective and faster communication and to keep the list updated. We conducted the 2nd IETE Alumni Meet last year, which was rewarding. Together we can influence the future of our almatmater and strengthen its reputation. Your active cooperation and support can bring our existing database in a form which can be put to the best possible usage. I wish that the diverse and talented population of IETE Alumni Association could create such an environment that our Alumni can use each other's expertise professionally.

Dear friends, your involvement in any form will go a long way in making IETE ALUMNI ASSOCIATION an effective platform for interaction and growth. I wish all the best to IETE Alumni Association.

Smt smriti Dagur

(President IETE)

Alumni Association

Dear Alumni,

IETE Alumni Association (Regd.) has been set up under the aegis of Institution of Electronics and Telecommunication, New Delhi (IETE) to help its Alumni members network for better interaction and opportunities to upgrade their skills & knowledge for their professional growth.

As a first step in this direction, I am happy to bring out this first volume of Directory of IETE Alumni Association members (in order of registration date) with the help of IETE Centres Chairpersons pan India, who were kind enough to provide us the required support. I appreciate the efforts of Office Bearers of various local centers' for catalysing this initiative.

I am also happy to note from the data available in the directory that most of the Alumni are doing extremely well in their professions in India and abroad, in various sectors like Govt, industry, R&D, academia, Pvt, public organizations or in self entrepreneurship. It is also mentioned here that IETE pass outs are stated to be hard working and professionally competent, as noted from the feedback emerging from the discussions held with professionals in this field during various technical conferences, seminars, workshops, Annual Conventions, symposia etc.

The Institution of Electronics and Telecommunication Engineers is an Apex professional body in the field of electronics and ICTs and has served the country in many ways over last 60 years including a role similar to a community college akin to those existing in other countries for helping the poorest of the poor to achieve education and recognition in the field of electronics and ICTs at engineering diploma (DIPIETE), degree levels (AMIETE) as well as Masters levels (ALCCS). It is therefore imperative to the work for betterment and growth of this Institution of national level eminence for benefitting those who cannot afford to avail engineering education from the govt or privately run colleges as they are comparatively very expensive.

I hereby seek your involvement and valuable inputs to infuse energy in the IETE Alumni Association and enhance benefits to its members in terms of placement, training, industry linkages or any other possible ways and look forward to your quick response. I urge that all IETE Alumni should register with the Association at the earliest and help the Alumni by synergizing the network, to maintain lifelong ties for their professional up gradation and satisfaction. In case you have any suggestion, please do write at alumni@iete.org

I hereby convey my heartiest thanks for giving me an opportunity to serve IETE Alumni Association to take forward for seeking professional excellence.

Dr S K Aggarwal

President, IETE Alumni Association (Regd.)

Dear Alumni,

IETE, the Second prestigious Professional society of India established in 1953 has thousands of alumni members across India and abroad. Pass outs of IETE have occupied and are occupying high positions in life. The vision of our great forefathers of IETE enabled us good career and prospects in life. According to changing times vision and mission of our IETE also are changing.

Information has become the vital requirement in our present day fast life. Unity through various social groups and organizations through effective quick communication methods are the present day trends. It is high time to have our Alumni Association strengthened so that we can have an effective Forum for the future prospects of our younger generation. Let us contribute using our position, capacity and selfless service for nation building in all possible ways.

I earnestly appeal all IETE pass outs - Degree, Diploma and Postgraduates (old and new) to join our Alumni Association and lead IETE our alma matter to greater heights!

C K Haridas
Chairman AAC, IETE Alumni Association (Regd.)

[Alumni Association](#)

Dear Alumni,

It is a matter of happiness and pride that our long felt need of forming an IETE alumni association has been fulfilled. The association provides us a platform to interact and upgrade our knowledge & skills so that we can improve our competence to face the challenges in our career in a more effective manner. We have compiled first volume of Directory of our members, which reveals that a large number of our fellow members have done extremely well in their profession; notwithstanding the facts that in the beginning of our careers, many of us did not have sufficient resources to join the so called elite organizations. I am of the view that since our alumni has got a very large pool of talented and dynamic professionals, we can create an environment to use each other's expertise professionally to benefit each other.

Our Almamater, The Institution of Electronics and Telecommunication Engineers is an Apex professional body. It has been performing a very prominent role of providing excellent education in the areas of electronics & ICT for the last 60 years. Most of the IETE chapters are centres/sub centres of excellence in the field of Electronics & ICT and compete with the best institution /colleges of our country. We provide an excellent opportunity to all those who want to learn and earn, simultaneously.

In order to have more effective communications among us and also help our existing students in guiding, mentoring, hand holding and especially in their placement we have an active website to update us. Beside this, I propose that we should meet more frequently at the local centres/sub centres level. In addition to acting as support system for our young students we should also put efforts to project ourselves as a consultative body for the Industries, Government and academic Institutions to benefit them from the huge talent pool of our Alumni. I hope the Association continues to focus on future efforts on Alumni growth.

Those of our members who have yet to get registered with IETE Alumni association should register with the Association at the earliest and strengthen our association for their professional upgradation and satisfaction. I urge all our esteemed members to actively cooperate and support in the growth of our organization and also work to strengthen the reputation of our Alma Mater.

You are welcome to mail your suggestion to further improve and strengthen our organization at the following email id: alumni@iete.org.

R.S. Chauhan
Secretary, IETE Alumni Association (Regd.)

CERTIFICATE OF REGISTRATION

Under societies Registration Act XXI of 1860

Regn. No. S-E/ 36 / Distt South-EAST/2013

I hereby certify that **THE INSTITUTION OF ELECTRONICS AND TELECOMMUNICATION ENGINEERS ALUMNI ASSOCIATION** Located at **2 INSTITUTIONAL AREA LODI ROAD NEW DELHI - 110 003** has been registered* under Societies Registration Act 1860.

Given under my hand and seal at Delhi on this 01st day of July Two thousand Thirteen.

Fee of ` 50/-

The Institution of Electronics and Telecommunication Engineers-India

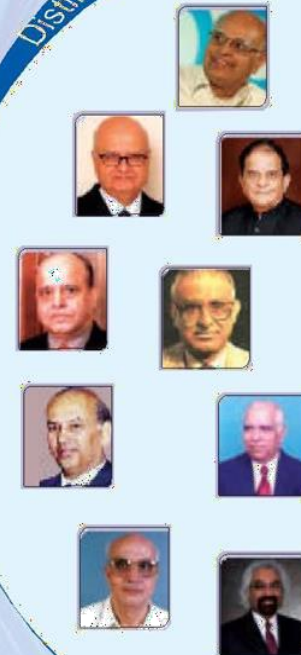

ABOUT IETE

Honorary Fellows *Just to name a few*

Founded in 1953, the Institution of Electronics and Telecommunication Engineers (IETE) is a leading professional society devoted to the advancement of Science & Technology in Electronics, Telecommunications, Information Technology, Computer Science and other related disciplines. IETE serves its more than 60,000 members both individuals and industries/organizations through its 64 Centres spread all over India including one at Kathmandu (Nepal). To keep pace with technological development and achieve the mission of advancing the profession, it organizes conferences, conventions, symposia, seminars, workshops, publications and brainstorming sessions for continued knowledge upgradation of its members. The Government of India, Ministry of Science and Technology, Department of Scientific & Industrial Research has recognized IETE as a Scientific and Industrial Research Organization (SIRO) and the Institution has also been notified as an Educational Institution of National Eminence by the Government of India

Distinguished Fellows *Just to name a few*
