IETE Student's Forum (ISF)

ISFs are formed at recognized Engineering Colleges and Polytechnics. The main objective is to catalyst the overall growth of students in professional skills by motivating them with outside class room activities, providing common platform to exchange of ideas by facilitating technical visits, projects works, contact with industries and institutions.

Student benefits: Priority in publishing papers in IETE Journal of Education, reduced registration fees to attend IETE conferences/seminars and reduction in membership fees to become corporate members of IETE. For the benefits of students, free subscription of IETE publications (Journal/Technical Review/ News letter) to colleges is provided. More than 550 live ISFs are functioning in India today with a student membership of more than 60,000.

ISF Zonal Congress

Meeting of Office Bearers of IETE Centers, Sub-Centers and ISF Coordinators from IETE north zone region.

IETE ZONAL SEMINAR & ISF CONGRESS

on

ICT for Health and Mankind
(16th - 17th March, 2019)

Organized by

The Institution of Electronics
and Telecommunication Engineers
(IETE) Aligarh Centre

Venue:

University Women's Polytechnic
Aligarh Muslim University
Aligarh - 202002

About IETE

The institution of Electronics and Telecommunication Engineers (IETE) is India's leading recognized professional society devoted to the advancement of Science and Technology of Electronics, Telecommunication & IT, founded in 1953. The IETE is the National Apex Professional body of Electronics and Telecommunication, Computer Science and IT Professionals. It serves more than 1,25,000 members (including Corporate Student and ISF members) through 63 Centres, spread all over India and abroad. The Institution provides leadership in Scientific and Technical areas of direct importance to the national development and economy. Government of India has recognized IETE as a Scientific and Industrial Research Organization (SIRO) and also notified as an Educational Institution of national eminence. The objectives of IETE focus on advancing electro-technology. The IETE conducts and sponsors technical meetings, conferences, symposia and exhibitions all over India, publishes, comical journals and provides continuing education as well as career advancement opportunities.

IETE Aligarh Centre

In order to increase the outside activities of the students, the IETE has established a centre in the Department of Electronics Engg, AMU, Aligarh. This is one of the oldest centres of IETE. At present the centre has its own building near AMU Campus.

About Aligarh and AMU

Aligarh is an important commercial as well as educational centre of India. Situated in western Uttar Pradesh, it is at a distance of 130 km southeast of Delhi on the Delhi - Howrah rail route and the Grand Trunk Road. The longitude and latitude of Aligarh city are 79°40' E & 27°30' N respectively. The Aligarh Muslim University, a premier Central University with several faculties and maintained institutions was established in 1920 by an act of Parliament. It draws students from all corners of the country as well as from foreign countries. In some courses, seats are reserved for students from SAARC and Commonwealth Countries.

About the Seminar

As the world's population is ageing the demand for health tech services is rapidly increasing. The Potential gains from implementing Information and Communicate Technologies (ICTs) in general have been apparent for years; however, their use in the health sector lags way behind many other parts of human care. Improved access to care, improved patient safety and cost savings are the major issues of the current and future needs of the population. Apart from this, ICT investment in this area will result a lot of business cases such as Electronic Health Records, Clinical Decision Support, Electronic Transfer of prescriptions and Chronic Disease management systems, all sustained by a modern IT infrastructure.

This seminar is aimed to describe and discuss the applications and solutions under development or implemented in the e-Health care systems, in terms of their technological, social & organizational dimensions.

The proposed seminar is organised by IETE Aligarh Centre to provide forum for discussion on the given theme particularly for north zone centres / sub centres.

Patrons

Prof. (Dr.) K T V Reddy

President, IETE

Prof. Tariq Mansoor

Vice-Chancellor, AMU, Aligarh

Convener

Prof. Z.A. Abbasi

Chairman, IETE Aligarh Centre

Organizing Secretary

Dr. Abdus Samad
