Message

My Dear Students,

You all know that IETE celebrates Students' Day every year on 1st of Feb at all our 63 Centres in a befitting manner. This day is exclusively devoted to the students of IETE and various activities of their interest are arranged like Quiz Contest, Presentation of Technical Papers, Games, Music and Essay Competition etc.

This is an excellent opportunity for all of you to showcase your innovative ideas, knowledge and skill not only in the engineering field but also in the cultural and social field.

Even though, IETE at present is passing through a critical juncture because of the MHRD notification on recognition of IETE courses and the strength of our students has declined, we are keeping our spirits high, as we are confident that with the support of all our students and alumni, very shortly, we will overcome this problem. We are representing our case vigorously to at all levels to find a solution for the recognition of our courses.

IETE has launched a variety of Skill Development Programmes/Vocational Courses at the HQ and at its various Centres. The Students who are pursuing AMIETE and DIPIETE can also simultaneously join these programmes which will be beneficial for them in getting employment. Cyber security is one such emerging field which is relevant for all our students and all Centres shall make an endeavor to conduct such courses as being done at IETE HQ.

I wish IETE students' Day a grand success and expect that students at all our Centres would participate with full vigor and zest. The proceedings of the same will be published in the forthcoming issue of IETE newsletter and Journal of Education.
