5	BRIEF DESCRIPTION OF THE EVENT	<p>Women need technology, but also more women in technology are needed. Information and Communication Technology (ICT) is not a panacea for women's empowerment and inclusive, sustainable development. However, with technology's significant and fast-spreading impact on individuals in the 21st century, ICTs are becoming an indispensable part of both, and how we approach them will affect our lives. Women need technology for the same reasons as men: to develop their marketable skills, enhance their economic opportunities, participate in informed decision-making, network, promote themselves as individuals, or simply have fun. Women need technology to participate in the modern world as equals.</p> <p>IETE Kolkata organised three days of the Women's Empowerment Initiative. This program will be organized jointly with IETE ISF (IETE Student Forums), with a series of technical lectures. With the women personalities who achieved a benchmark in their respective technology domains.</p> <p>Program Schedule:</p> <p>Day 1, Session -1: Speaker Dr. Moutushi Singh, Associate Professor, Department of I.T. & CSE (IOTCSBT & IOT), Institute of Engineering and Management, Kolkata</p> <p>Title of the talk: Empowering Women through Technologies</p> <p>The program started with welcome address by Chairman, IETE Kolkata Centre then addresses by other dignitaries, followed by felicitation of the speaker.</p>
