

## **Extension of Old Scheme**

Considering many requests from IETE Students from old scheme that was closed in June 2019 exam, with only a few subjects to be completed and let them complete their course under the old scheme instead of migrating to new scheme, IETE Governing Council in its meeting held on June 05, 2021 has taken the following decisions:

- a) The old scheme which was closed after the June 2019 exam is now extended till June 2022 exam. Students from the old scheme are now permitted to complete the course under the old scheme until June 2022 exams.
- b) The students will be allowed to appear in exams as per their original scheme, subject to meeting the existing eligibility rules and they must possess valid student membership or get their membership renewed as per rule.
- c) This one-time extension is only up to June 2022 and is optional i.e. Old scheme students have the option of either continuing in the old scheme or migrate / continue in the new scheme.

Students willing to avail benefit as per above decisions can apply for August 2021 exams as per old scheme by writing to [exam@iete.org](mailto:exam@iete.org) or [sic@iete.org](mailto:sic@iete.org) without paying the late or correction fee. Students can also write on these emails or speak to exam section at 011-45142104/106/153/Extn: 223 for any clarification in this regard.
