## M E S S A G E

My Dear Students,

Greetings to You and Your Family Members in the New Year 2025!

You all know that IETE celebrates Students' Day every year on 2<sup>nd</sup> February, at all its 63 Centres/Sub-Centres across the nation, with great zeal and enthusiasm. The celebrations aim to commemorate the dedication, creativity, excellence and relentless pursuit of its Students and Alumni in the field of technology. The commitment and hard work of our Students and Alumni have been the biggest support in achieving our goals and in steering us forward on the path to success. Since its raising, IETE has been unwavering towards its students for whom IETE conducts several technical programmes with the aim of inculcating the true spirit and essence of technology in them.

Our aim has always been to encourage our students towards innovation and transformation in different sectors. It is heartening to note that IETE students and alumni are occupying eminent positions in Government and Private sectors. Many of them are well-known for their path-breaking research in the Science and Technology.

Students' Day is invaluable to all our students not only because several technical and cultural activities, which are of their interest, are organized on this day but also since it provides them with a platform to showcase their technical and innovative skills, share their knowledge and gain credibility in their chosen fields of specializations. They can also share knowledge and insights with other students. These skills play a prominent role not only during their engineering course but also after the completion of their course, especially during their job search and career advancement.

I wish IETE Students' Day a grand success and expect that students at all our Centres/Sub-Centres participate with great fervor and interest to make this event a grand success. The events & celebration will be covered in IETE website, and will be published in the forthcoming issue of IETE Newsletter.

My best wishes and compliments to all the IETE students on this IETE Students' Day. May your passion for learning fuel your success and your dreams become a reality.

Happy Students' Day!

Sunil
