From The President's Desk

Prof (Dr) J W Bakal

Dear Members,

Looking back at 2021 we think that this has been both a memorable and forgettable year. The second wave of COVID hit the country with even more intensity. None of us have escaped unscathed in our personal or professional lives. We've been confronted with creating and adapting to new ways of learning, working and living our lives amid stressors that we have never experienced before. However, with the advent of vaccines and their effective roll out, all over the world, we are hopeful that the pandemic may come to an end by the closing of this year and the year 2022 will bring with it better times and new opportunities.

During the year, despite the unprecedented challenges, the mission of IETE stood unwavering. We remained dedicated to nurturing technological innovations and excellence for the benefit of mankind. Throughout the year, IETE community of engineers, scientists and researchers continued to counter to the Covid-19 pandemic by helping to create the life-sustaining technology that will lead to a healthier and more flourished world. When our Engineers and Scientists are responding to

the pandemic so promptly, it becomes even more obligatory on our part to reach them, wherever they are and meet their transformed requirements. In our aspiration to acknowledge our Members, we learned even more ways to use technology to work smarter and reach wider audiences by engaging them how and where it worked best for them.

One of the promising developments, this year, is the establishment of Centre of Excellence (CoE) at Ranchi, Jharkhand. The centre was launched on 10th Jun 2021 in collaboration with Cyber Peace Foundation. IETE already had well established Centres of Excellence at its Delhi, Mumbai, Hyderabad and Bengaluru chapters. These CoEs have been set up in latest technologies in the field of IT, Artificial Intelligence and Machine Learning. At Ranchi the centre is started with focus on Cyber Security which is indispensable in the present pandemic times when everything has moved on to online platform and cyber knowledge & its security is of paramount importance. The CoE has been initiated basically to train and upskill the youth in cyber security domain to bridge the gap. As we work to help people face challenges, everything we do is designed to set them up for success in the future and unlock their potential to transform not only their own lives, but their entire communities.

IETE has voluntarily adopted socially relevant and progressive programmes especially aimed at the weaker and underprivileged sections of society. It is the endeavour of IETE to empower the students from the weaker sections of the society from all over India including the inaccessible and remote areas

by imparting technical education at a very affordable cost, thus paving a way for inclusive growth. Furthering our social responsibilities and obligations to the society IETE is aiming to establish an University at Ranchi. With the establishment of this University, the tribal population of Jharkhand will get access to the world class level of education at affordable rates, which will help them to achieve their aims and ambitions in life.

One other area of primary focus at this moment is to enhance our Corporate, Organizational and ISF membership strength and we are making vivacious endeavours towards accomplishment of this objective. I would like to call on all energetic and bright engineers engaged in the public and private sectors, who recognize the power and importance of long-term thinking, to join IETE, the most vibrant society, as a member, with an aim to work together for mutual benefit. IETE looks to reach out to prospective members and engage those who bring with them a wealth of knowledge through practical experience. We encourage our members to share their views, experience or expertise by submitting articles for our Journals, Newsletters and Souvenirs and by participating in various workshops, seminars and conferences. To assist and support active members, IETE also bestows awards to the well-deserving professionals.

In order to improve the IETE's visibility and strengthen its activities, the following MOUs have been signed -

1. A MOU has been signed between IETE and Cyber Peace Foundation, NGO on 21st May 2020 to encourage research in the field of Cyber Security, Cyber Defence and Internet Engineering and Governance, Setup Cyber Peace Research Centre &

Centre of Excellence, introduce new courses on cyber security, cyber-crime investigations, internet engineering and governance subject to prior approval of Academic Council of University and other legal requirements. Creation of knowledge and expertise to face new and emerging security challenges produce cost-effective, tailor made indigenous security solutions in information security products and services.

2. Another Memorandum of Agreement between IETE and Instrumentation Automation Surveillance and Communication Sector Skill Council (IASC-SSC) on 12th June 2020 for collaboration on conducting skill projects in creation on livelihood on unemployed youths and up-skilling projects for MSME industries on industry 4.0 outcome based trainings, assessments and certification on Qualification Packs (QP) and National Occupational Standards (NOS) for trained candidates under various skill development projects.

64th ANNUAL IETE CONVENTION

It gives me immense pleasure to inform that IETE is organizing its 64th Annual IETE Convention on the theme "IoT and Block Chain Technology for Smart Cities and Societies" on 24th- 26th Sep 2021 via online mode. The Convention will be hosted by IETE Kolkata Centre.

STUDENTS

IETE has a proud history and a national reputation. Our programs have always been known to be one of the best engineering programs and used to attract a number of working professionals and students from all over the country.

However, due to the MHRD Notification the students' enrollment has depicted a significant downward trend. It is worth reiterating here that IETE started its yeoman services of training engineers in Electronics and Telecommunication in the year 1959, when there used to be a few engineering colleges in the country. The major objective was to reach the unreachable section of our society and to provide them with the privilege of undergoing higher technical education and acquiring degree/diploma certificates in selected disciplines of Electronics and Telecommunications and associated fields of studies while they start to work to sustain them financially. IETE courses are quite reasonably affordable and within the reach of the underprivileged and poor sections of the society and has always been a boon to them, who, in spite of their caliber and will to undergo higher education, is deprived of it, due to the financial constraint. IETE pass outs are doing extremely well, in various Govt. Depts., PSUs, Universities, Defense, Railways and even overseas. There are large numbers of IETE alumni who have brought glory to the institution by serving the nation in very high positions.

ACADEMIC ACTIVITIES

The IETE's efforts of restoring the recognition of its courses have reached almost to the final stage. Unfortunately due to Covid-19 pandemic the Honourable Delhi High Court is not hearing our case. We are planning to conduct short term skill based courses recognized by NSDC, Govt of India. The process of establishing IETE University at Ranchi in the state of Jharkhand is in progress. Hopefully we will receive Letter of Intent in the next few months.

EXAMINATION ACTIVITIES

In June 2020, 67 students of AMIETE and 13 students of DIPIETE have appeared for examination. In December 2020, 58 students of AMIETE and 19 students of DIPIETE have appeared for examination. Looking into the requests of the students, the Governing Council in its meeting held on 05th June 2021 has decided to extend the Old scheme (popularly known as Current Scheme) that was closed in June 2019 exam upto June 2022 exam.

From June 2019 exam 0.5% scheme is introduced by which students whose award of degree/diploma (AMIETE/DIPIETE) is on hold due to non-passing of one single paper/subject can be awarded with additional marks, maximum 0.5% of the total maximum marks of all the subjects of the degree/diploma, in the left out single subject and be awarded with degree/diploma if they are passing the left out single subject after adding additional marks in the best of all the attempts in that subject.

The student should have appeared in the single left out subject in his/her last exam in which completion is claimed and should have appeared at least twice in that subject.

67th IETE FOUNDATION DAY

The 67th IETE Foundation Day was celebrated on 2nd Nov 2020 via WebEx Meeting Platform on the topic "Emerging Technologies for Effective Management of the Pandemic". Prof. K. K. Aggarwal, Chairman, NBA, New Delhi was the Chief Guest during the occasion. Among the invited speakers were Ms. R. Ezhir Pavai, Vice President (Wireless Service Line), Altran (Gurugram), Shri Anil Pathak, Director (Engineering), Harman (Gurugram),

Shri Subhankar Pal, Assistant Vice President (Research & Innovation), Altran (Gurugram).

STUDENTS' DAY 2021

The Students' Day was celebrated on 1st of Feb at all our centres across the country. However, this year due to the existing pandemic most of the centres organized the day via digital mode. The day was exclusively devoted to the students and various technical activities or their interests were organized. Prizes were also distributed to the students for their innovative and extraordinary presentations. A message for our students from President IETE was also sent to all centres, which was read at the occasion.

MEMBERSHIP AND PUBLIC RELATION ACTIVITIES

One of our primary areas of focus is to enhance our Membership strength. Although, it remained a bit challenging for us during the pandemic times but with effective planning and groundwork we turned the crisis into opportunity. We declared a Covid discount of 25% on all categories of membership, which is later extended till 30th Sep 2021. With the dedicated and committed efforts of Membership and PR Team at IETE HQ, we managed not only to attain the desired goals but headed even beyond the set target and achieved the maximum membership strength, even more than last 3 years. IETE's mission has always been to reach the unreached and to extend its ambit even to the remotest and inaccessible areas. Keeping this objective in view, we have opened a new IETE-ISF at Dr B R Ambedkar Institute of Technology at Portblair, Andaman and Nicobar Islands. We also managed to organize all scheduled events successfully via virtual mode. Identifying our priorities and

developing strategies kept us on the track and we managed to carry on all activities within the stipulated time, despite such unusual circumstances.

IETE ONLINE ELECTIONS

Online elections were conducted successfully for the Governing Council, President, Distinguished Fellow and Organisational Member.

FINANCE

The income during the year 2020-21 of IETE Headquarter decreased to Rs.2.99 crores from Rs.4.22 crores during 2019-20. The main reason for decrease in income from all fields be it Membership & PR, Publication, Student admissions, Rental Income etc. is the Corona Pandemic due to which the Colleges and Institutions remained closed for most part of the year. The overall expenses however, decreased from Rs.5.20 crores during 2019-20 to Rs.3.80 crores during 2020-21. Since the revenue was low and for most part of the year the office was closed there was considerable savings in expenses.

The Investment Corpus of IETE HQ has decreased from Rs.26.13 crores during 2019-20 to Rs.25.20 crores during 2020-21. The main reason being 2.00 crores investment in Perpetual Bonds of Canara Bank was redeemed by the Bank on the last day of the financial year. IETE HQ however, earned good interest income of 2.11 crores during 2020-21 as against 1.91 crores during 2019-20 despite declining interest rates in all the investment instruments. This could have been possible due to diversified portfolio of Mutual Funds, Perpetual Bonds, GOI Bonds and Fixed Deposits which collectively yielded high returns.

We could also achieve interest of Rs.32.05 lacs during 2020-21 as against 32.28 lacs during 2019-20 from investing IETE CPF Funds. The main reason being the decrease in corpus due to withdrawal by the members.

The Centres income also declined to Rs.2.01 crores during 2020-21 from Rs.2.42 crores during 2019-20. The reason being the Corona Pandemic.

The Consolidated income of IETE has decreased to Rs.4.99 crores during 2020-21 from Rs.6.64 crores during 2019-20. The expenditure however, decreased to Rs.5.93 crores from Rs.7.81 crores during 2020-21. This resulted in decrease in loss from Rs.1.17 crores during 2019-20 to Rs. 0.94 crores during 2020-21.

TAXATION

All assessments from Income Tax Department have been dealt successfully with no penalty / demand from the department. No GST liability this year due to wrong Input Tax Credit claimed or accounting entries. GST Registration in has been done in most of the states where IETE centres are present and full compliance of GST in terms of timely filing of returns and deposit of tax is being followed. All tax deposits and filing done as per the scheduled timeline of the department during the year 2020-21 with no late fee/fines.

PUBLICATIONS

IETE Publishing had considerable challenges because of the extended COVID-19 pandemic, but it performed admirably, avoiding many of the COVID-related disruptions encountered by other sections. The epidemic accelerated our learning and working, demonstrating the

value & usage of new digital tools in academic institutions and workplaces. It at the very least demonstrated that we can learn and work from anywhere and at any time. Video conferencing and asynchronous learning practices became more common in IETE groups, implying that post-pandemic demand for a mix of in-person and online learning can be easily met.

Overall, 2020 was a year of learnings, and we moved our focus to removing backlogs as a top priority. We took advantage of a variety of digital tools to help promote our publications while also providing stakeholders the attention they deserved by keeping in touch. The average readership of IETE Journals is increasing by 37% on tandfonline.com. This website is presently ranked as the 494th most popular on the internet. Every two weeks, authors receive subject-specific emails tailored to their individual interests, promoting the most recent content. This has resulted in the promotion of 389 articles from IETEJR, 75 articles from IETETR, and 5 papers from IETEJE since January 2020. T&F's services for our publications, such as news content alerts, post-publication emails to authors, citation alerts, visibility on social media platforms, and links to Editors unique to their journal, made a significant difference (s). Over the annual period from January to December 2020, we produced 135 high-quality papers (reviews/originals) in IETE journals (TR-49, JR-76, and JE-10) and made greater efforts to re-connect with stakeholders.

The Editorial Board Members are the driving force behind IETE Publications' successes. **Prof Shibhan Koul**, Emeritus Professor, IIT Delhi for *IETE Journal of Research*; **Prof M Jagadesh Kumar**, Vice Chancellor JNU, New Delhi for *IETE Technical Review*; and **Dr P V Ananda Mohan**, Former Technological Advisor, CDAC,

Bangalore for *IETE Journal of Education* are the Board's Editors-in-Chief. We thank our editorial team members for their painstaking effort and continuous support on behalf of IETE, especially our reviewers for their attentive reading of the submissions and constructive comments to improve and clarify the manuscripts.

The research community responds well to IETE journals, and they are immensely popular among academics. Year after year, each journal's circulation, downloads, and submissions have

steadily increased. The IETE Journal of Research has a 23 percent acceptance rate, The IETE Technical Review has a 16 percent acceptance rate, and The IETE Journal of Education has a 26 percent acceptance rate. Adopting global standards for publishing, publicising, and increasing the exposure of the organisation is yielding positive benefits. T&F has equipped IETE with a cutting-edge publishing platform that allows readers to interact with digital information in a rich and spontaneous way.

Independent Auditor's Report

The Members

Governing Council of

The Institution of Electronics and Telecommunication Engineers

2, Institutional Area, Lodi Road New Delhi-110 003

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of the **Institution of Electronics and Telecommunication Engineers** ("the Institute") which comprises the Balance Sheet as at 31 March 2021 and the Statement of Income & Expenditure for the year ended 31 March 2021, which incorporated the financial statements of the Headquarter audited by us and 52 Centers audited by the other auditors and 6 Centers (unaudited) as certified by the management and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Institute in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. These Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Matter of Emphasis:

- (a) Without qualifying our Report, we draw attention of the Members to the fact that the Institution has been incurring losses continuously since last many years due to the excess of expenditures incurred over the income earned by the Institution. A summary of losses for the last 4 years is as under:

(Amount in Rs. Lacs)

Financial Year	2020-21	2019-20	2018-19	2017-18
Net Loss	93.91	117.65	7.74	71.07

- (b) The uniform accounting policies has not been followed by all the Centers regarding accounting of Depreciation.
- (c) Some Centers do not have proper records showing full particulars including details and situation of fixed assets and also there is no practice of Physical Verification of the Fixed Assets undertaken by the Management during the year under the audit.
- (d) Some Centers do not have proper accounting of consumption of Inventory and it is also reported that the inventories are not physically verified.
- (e) Upon going through the Audit reports provided by the Auditors of the Centers, some discrepancies related to accounting, booking of income and expenses, reconciliation of Bank Accounts and other Current Assets are reported, which may impact the Income and Expenditure Account as well as reporting of assets/liabilities.
- (f) During the year under audit, out of 22 States/Centres only 16 states including HQ & Delhi Centres, have complied with GST requirements. The management has informed that they are in the process of complying with the statutory requirements for another 6 States/Centres also.
- (g) Data is not compiled for the *five centers* which are Agra, Amity Noida, Imphal, Jalandhar & Kathmandu.
- (h) Six Centers which are unaudited but certified by the management are Burdwan, Coimbatore, Dharwad, Jabalpur, Surat and Vadodara.

Qualified Opinion

According to the information and explanations given to us and based on our audit material, we want to draw member's attention to following points:

A) HYDERABAD CENTRE**Basis for Qualified opinion**

We hereby qualify our report with respect to the following points:

- *Entity has not made provision for liability of interest for the GST payable.*
- *The EPF & Miscellaneous Provisions Act, 1952 being applicable. The Management has not taken steps to regularize the Employees currently employed by the Institute and register them for Provident Fund.*

No deductions are being made from the employees' salary accounts nor any contributions being set aside from the Employers' funds. This would lead to another significant cash outflow on the Entity's part.

- *Entity does not have any proper records showing full particulars, including quantitative details and situation of fixed assets. There is no practice of Physical Verification of the Fixed Assets undertaken by the Management during the year under the audit.*
- *During the Year under the audit, the entity has incurred INR 2.98 Lakhs towards Building Repairs and Maintenance cost. However, in the absence of guidelines with respect to usage of the building Fund, the repair and maintenance cost has been written off as period cost and not adjusted to the building fund.*

It is recommended that the Entity have guidelines for utilization of various Fund Balances reflected in the Financial Statements.

- *Entity has not entered into agreement for the security services obtained from Blaze Securities Services. It is recommended to enter into an agreement with the Service Provider.*

Also, the Entity being a non-corporate entity is liable for Reverse Charge upon Security Services received from Blaze Security Services. It is advised to the Management to obtain GST Registration number of Blaze Security Services and commence making, the payment of the GST on Reverse Charge Basis.

- *HO Loan Balances are subject to confirmation and reconciliation.*
- *Entity has not made any provision for interest/penalty showing in the TRACES Portal.*
- *During the audit, we have observed that there are several invoices and vouchers upon which there are no signatures either by the maker or the checker or the Office Bearers.*
- *Salary cost is not matching the salary cost and is maintained manually. The cost is to be reconciled against actual payments. The salary sheet is not authenticated by the office bearers.*

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for qualified opinion.
