From The President's Desk

Prof (Wg Cdr) P Prabhakar

Dear Members,

As I write this message, hope and excitement for our future endeavours intermingle with my feelings of gratitude. I reflect on our accomplishments of the year gone by and feel a great sense of contentment. I am glad that, despite the pandemic, the mission of IETE stood firm. We remained committed to encouraging technological innovations and excellence for the benefit of mankind. We hosted a number of professional events showcasing the most cutting-edge technologies; in addition many value added programmes were organized by our ISFs and PACs. IETE always endeavour to reach out to its members and engage them by providing a platform, through its technical programmes and events, where they can interact, exchange and share their experiences, present and discuss the most recent innovations. During these challenging times, when our IETE community of Engineers, Scientists and Researchers have been on the front line to combat the Covid-19 pandemic by helping to create the life-sustaining technology, it became even more pertinent for us to reach them wherever they are and meet their transformed requirements. Despite the hurdles brought on by the global crises, passion and vivacity remained unabated. Whether it is the 5th Innovators-Industry Meet, 68th Foundation Day, 53rd Mid-term Symposium, 54th World Telecommunication & Information

Society Day the spirit could not be diminished, even in the face of a pandemic. An Apex Forum on the theme “Digital University” was also organized. Besides this, HQs also organized webinar on “Applications of Gamma Rays in Medical Diagnostics” on 29 Jan 2022. A webinar on “Indigenous Development of Telecom Systems for an Atmanirbhar Bharat” was also organized on 19th Feb 2022. Eminent dignitaries from Government, Private and Public sectors participated and graced our events. The topics chosen were extremely significant and the deliberations unveiled the new and upcoming technologies. Additionally, IETE organized an Alumni meet which was a huge success, Alumni and former IETE staff members, reconnected and rehabilitated their acquaintance, shared success stories and professional details of their life with the Institution. IETE had desired to host this meet for a long time and we are delighted that it could be done with the help of our Alumni Association members. All these achievements in last one year demonstrate our diligent work and our committed collective efforts to move our mission forward, with rigorous safety protocols.

IETE has been making steady progress in establishing IETE Students’ Forum at various Engineering College / University and Polytechnic across the Country. The aim is to provide a platform for advancement in the engineering knowledge and to help the students by making them aware of various opportunities for higher education and employment available to them and also empowerment of students’ courses through knowledge and skill by facilitating and organising workshops, seminars and visit to regional local Industries.

Furthering our social responsibilities and obligations to the society IETE is aiming to establish a University at Ranchi. With the establishment of this University, the tribal population

of Jharkhand will get access to the world class level of education at affordable cost.

It is a matter of great pride that even after so many challenges, the Institution has made outstanding advancements in almost all the spheres during the last one year. We have made great accomplishments in improving our alliance with Member and students' community through social media networks while making new discoveries and engaging with local and global entities. In order to improve IETE's visibility and to strengthen its activities an MoU has been signed with Satcom Industry Association (SIA-India) with an objective to collaborate, exchange information, jointly host events, conferences and other meetings and to take collective steps to enhance Membership strength.

65TH ANNUAL IETE CONVENTION-2022

I am indeed happy to inform that IETE is organizing its 65th Annual IETE Convention on the theme **“Frontier Information & Communication Technologies for Atmanirbhar Bharat”** at IETE Hyderabad centre on 25-26 Sept 2022. I believe the convention will turn out to be a grand success and bring out the latest research in this domain.

ACADEMIC ACTIVITIES

IETE's efforts of restoring the recognition of its courses have reached almost to the final stage. Our case is in the High Court and we are hopeful of a positive verdict soon. The process of establishing IETE University at Ranchi in the state of Jharkhand is in progress.

EXAMINATION ACTIVITIES

In Oct 2021, sixty one students of AMIETE and twenty one students of DIPIETE appeared in the examination. In March 2022, thirty two students of AMIETE and ten students of DIPIETE

appeared in the examination.

STUDENTS' DAY 2022

IETE students' day was celebrated on 1st Feb 2022 at all our centres and sub-centres with great vigour and zest. The day was exclusively devoted to the students and various technical activities of their interest were organized. Prizes were also distributed to the students for their innovative and extraordinary presentations. A message for our students from President IETE was also sent to all centres, which was read at the occasion.

68TH IETE FOUNDATION DAY

The IETE 68th Foundation Day was celebrated on the theme **“Advancing Skill Development to the Next Level: A Paradigm Shift to Amalgamate Skills & Academics with Seamless Transition”** on 20th Nov 2021 through online mode. The luminaries who graced the occasion were: Dr N S Kalsi, IAS (Retd), Chairman NCVET; Prof P B Sharma, Vice Chancellor, Amity University, Gurugram; Dr Ajay Kumar Sharma, Director NIT, Delhi; Shri A K Nayak, Advisor of IIBM Group of Institutions. The presentations delivered on the theme were highly informative and inspiring.

MEMBERSHIP ACTIVITIES

One of our primary focus areas is to enhance our membership. Collective efforts by the HQs and centres are being made to augment IETE's membership strength. IETE's mission has always been to reach the unreached and to extend its ambit even to the remotest and inaccessible areas. We aspire to bring together all energetic bright engineers and scientists under one umbrella i.e. IETE, to promote research and academic endeavour, contributing to Nation's Scientific and technical growth. Special discounts/concessions were given on the membership fee during the Covid period to captivate Professionals. At present also

on the occasion of Azadi ka Amrit Mahotsav a discount of 25% is in force till 31st of Dec 2022 on all categories of Life Membership. We are approaching all ISF colleges, those who were our members in the past with a request to revive their membership and those who are on roll with us currently to add more members to the Forum. We are also trying to further enhance the quality of service we provide to our members by developing new strategies and policies so as to retain current ISF members and to win back lapsed members.

CENTRES

As always, this year too, some of our Centres performed excellent; however, others maintained a little low profile. I appeal to the Executive Committee of all such centres to speed up and put in more intense efforts towards Membership growth and undertake more activities with a view to generate revenue. Total membership of IETE-Zone/Centre wise and new enrolment details are given elsewhere in this report.

ONLINE ELECTIONS

Online elections were conducted successfully for the Governing Council, President and Distinguished Fellow.

PROFESSIONAL ACTIVITY CENTRE

A new Professional Activity Center (PAC) is established at AISSMS College of Engineering, Pune. The proposal for the same was approved by the Governing Council in its meeting held on 2nd May 2022.

NEWS FROM PROFESSIONAL ACTIVITY CENTRES

PAC at Australia- The 20th Symposium and Annual Day of IETE PAC, Australia was organized on 24th Jul 2022 at the Robertson Lecture

Theatre, Murdoch University. Eminent experts from Industry and Academia delivered talks giving an overview on the future technology trends.

FINANCE

The income during the year 2021-22 of IETE Headquarter increased from Rs. 2.99 Crore to Rs. 3.41 Crore resulting into gain of Rs. 13.69 Lakh from the loss of Rs. 81.29 Lakh during 2020-21. The main reason for increase in income from Membership Fee & Journal, PR, and Other income & publication receipts. The overall expenses also decreased from Rs. 3.80 Crores during 2020-21 to Rs. 3.28 Crores during 2021-22. Since the revenue expenses were low so there was considerable saving.

The Investment Corpus of IETE HQ has decreased from Rs. 25.20 Crores during 2020-21 to Rs. 23.17 Crores during 2021-22. The main reason being redeemed by Bank on maturity of the financial year. IETE HQ however, earned good interest income of Rs. 1.18 Crores during 2021-22 as against Rs. 1.35 Crores during 2020-21 despite declining interest rates in all the investment instrument. This could be possible due to diversified portfolio of Mutual Funds, Perpetual Bonds, GOI Bonds and Fixed Deposits which collectively yielded high returns.

Our interest income declined to Rs. 14.71 lacs during 2021-22 as against Rs. 32.05 lacs during 2020-21 from investing IETE CPF Funds. The main reason being the decrease in Corpus due to withdrawal by members and Corpus Fund of Rs. 1.90 Crore CPF during the year was redeemed by Bank.

The Centres loss also decreased to Rs. 1.80 Crore during 2021-22 from Rs. 4.99 Crore during 2020-21.

This resulted in decrease in loss from Rs. 93.92 lakh during 2020-21 to an increase of Rs. 29,134/- during 2021-22.

TAXATION

All assessments from Income Tax Department have been dealt successfully with no penalty / demand from the department. No GST liability this year due to wrong Input Tax Credit claimed or accounting entries. GST Registration has been done in most of the states where IETE centres are present and full compliance of GST in terms of timely filing of returns and deposit of tax is being followed. All tax deposits and filing done as per the scheduled timeline of the department during the year 2021-22 with no late fee/fines.

PUBLICATIONS

IETE Publications charted out fresh horizons this year with well thought-out initiatives.

Members will be pleased to learn that our publications are flooded with submissions from authors not only from India but also from global experts from the Middle East to Africa in addition to China. To the extent that the publications committee was compelled to expand the number of articles in *IETE Journal of Research* from 21 to as many as 70! This decision was made solely to cover the backlog of accepted articles. In addition, there is an unmet demand for the publication of Special Supplements that reflect ground-breaking developments in the ICT sphere. Following a discussion with co-publishers, IETE will soon have the ability to publish high-quality Supplement Issues in Journals. The organization intends to release a standardized road map to expeditiously begin accepting proposals in this regard.

Typically, professional journals use what is known as a blind peer review procedure, which employs anonymous reviewers. Geo-

graphically distributed reviewers dedicate some of their time to time-sensitive tasks for a variety of journals, resulting in unanticipated delays most of the time. When the number of submitted papers continues to grow and the backlog begins to accumulate, the situation can become dire. It is evident that, for any technical journal, this situation will spiral out of control if combined with the tremendous expansion occurring in various domains of activity, such as microstrip antennas, optical communications, and artificial intelligence; concurrently with the challenges posed by severe climate change mandating a greater emphasis on renewable energy; and the pandemic that highlighted the significance of rigorous biotechnology research. Now, in order to effectively address the issue of controlling review process delays, we have increased the size of our Editorial Board and are soliciting the assistance of additional professionals via announcements on various platforms. Therefore, **all Experts interested in acting as honorary reviewers/editors are encouraged to submit their academic information, emphasizing their areas of expertise, to sec.gen@iete.org for consideration by the Editorial Board of *IETE Journal of Research*.** In addition, we suggested a set of structural changes to the current review method to ensure that authors are swiftly informed of reviewers' comments and conclusions regarding their articles. We hope that the turnaround time between paper submission and final decision would be improved during the next year.

Editorial Board Members are the driving force behind IETE Publications' success. **Prof Shibani K Koul**, Emeritus Professor, IIT Delhi, is the Board's Editor-in-Chief for the *IETE Journal of Research* and **Prof M Jagadesh Kumar**, Chairman, UGC, is the Board's Editor-in-Chief for the *IETE Technical Review*. Editor-in-Chief **Dr P V Ananda Mohan**, who has expressed his willingness to step down as Editor-in-Chief of the *IETE Journal of Education*, may be succeeded

by another expert in the future very soon. Nonetheless, on behalf of IETE, we owe a debt of gratitude to all EICs, editorial board members for their painstaking efforts and unwavering support, and in particular to our reviewers for their careful reading of the submissions and constructive suggestions for improving and clarifying the manuscripts.

Furthermore, IETE Publications has been backed by **Professor S C Dutta Roy**, who has consistently proven to be the most helpful resource whenever problems have arisen. We sincerely appreciate his persistent support as an experienced advisor and thorough professional.

Academics generally approve of and like read-

ing IETE periodicals. Annual increases may be seen in all three metrics for all journals. The *IETE Journal of Research* has an acceptance rate of 22%, while the *IETE Technical Review* accepts articles at a rate of 12% and the *IETE Journal of Education* accepts articles at a rate of 34%. Using international benchmarks for publication, promotion, and boosting the brand presence has yielded excellent results. Taylor & Francis, a British publishing company, has equipped IETE with a state-of-the-art publishing platform that facilitates dynamic user engagement with digital content.

IETE AWARDS

Through its annual/biannual awards, IETE recognizes the outstanding achievements of its members and other professionals in the domains of electronics, telecommunications, computers, information technology, and engineering-related professions. These honors and recognitions are critical in enhancing the institution's profile and attaining its objectives. IETE confers 28 (twenty-eight) Main Awards to individual members for outstanding achievements in the specified categories, 08 (eight) corporate awards to industry/organizations for outstanding performance, 08 (eight) awards to authors for their best technical/research articles published in IETE journals during the calendar year, and academic awards to IETE student members for outstanding achievements in the specified categories.

To make the present process for selecting Awardees for IETE Awards more transparent, fair, and systematic, a "Jury of Experts" has been established for each award. This Jury panel is comprised of five or more subject matter experts from prestigious Institutions/Universities/Engineering Organisations who were chosen based on their subject matter expertise, academic/research experience, and managerial background. The Jury considers each award application in relation to its criteria and makes impartial recommendations to the Board of Awards regarding the selection of nominees for each award.

The nominations forms for IETE Main and IETE Corporate Awards are regularly reviewed to incorporate transparent, fair and non partisan procedures. The Board of Awards (BoA) and the Jury experts of the relevant panel evaluate the nominations received and give their independent recommendations in favour of outstanding nominees. Thereafter the recommendations of the Board of Awards (BoA) and the Jury members are recorded and processed and ratified by the IETE Governing Council. Based on the merit, an awardee is selected for recognition of excellence in the award category. Lectures by awardees are organized at IETE Centres nearest to the location of awardee. To give wider publicity to attract good response to IETE Awards, "Call for Nominations" is published in Nov-Dec and Jan-Feb issues of *IETE Journal of Research* and *IETE Technical Review*. In addition, brochures and "Call for Nominations" for IETE Main Awards and IETE Corporate Awards are sent to Centres/Sub-Centres and made available on IETE Website. For more publicity, a one-page ad about the different IETE Awards is also published in ELCINA magazine.

We have audited the accompanying consolidated financial statements of the **Institution of Electronics and Telecommunication Engineers** ("the Institute") which comprises the Balance Sheet as at 31 March 2022 and the Statement of Income & Expenditure for the year ended 31 March 2022, which incorporated the financial statements of the Headquarter audited by us and 43 Centers audited by the other auditors and 3 Centers (unaudited) as certified by the management and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Institute in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of

the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Matter of Emphasis:

- (a) The uniform accounting policies has not been followed by all the Centers regarding accounting of Depreciation:
- (b) Some Centers do not have proper records showing full particulars including details and situation of fixed assets and also there is no practice of Physical Verification of the Fixed Assets undertaken by the Management during the year under the audit.
