From The President's Desk

Prof (Dr) V Gunasekhar Reddy

Dear Members,

I am pleased to share that IETE has done substantially well during 2022-23. IETE continues to play a crucial role with members enabling them to grow in their profession and helping them accelerate new technology adoption and bring agility into execution. We continued to develop membership across all grades. Whether it is corporate membership, Organizational or ISF membership, a considerable augmentation in numbers is seen this year. Impact factor for our publications have been steadily rising. To clear backlog of pending articles, we have brought out voluminous issues of IETE Journal of Research.

The year 2022-23 proved to be a year of significant accomplishments for IETE Foundation. Once again, we deepened our collaborations with corporate and institutional partners, with the goal of investing in the potential of upcoming generations. Through scholarships, collaborations and partnerships, the Foundation remains dedicated to empowering talented individuals and driving positive change within the IETE Engineering Community.

In line with the objectives set by Hon'ble Prime Minister of India: To promote & encourage Make in India programme during the year of Azadi ka Amrit Mahotsav and to develop Atma Nirbhar Bharat, IETE is continuously interacting with Industry Professionals, Educational Institutions as a catalyst Agency to develop start-ups in the areas of Artificial Intelligence, Machine Learning and Data Analytics. To promote and to aid in the implementation of the National Education Policy-2020, we had conducted seminars, workshops, National and International conferences across the Country.

I am happy to inform that IETE signed MoUs with National Institute of Electronics & Information Technology (NIELIT) during Sept 2022 to conduct courses in Blockchain, Artificial Intelligence, Machine Learning, etc. The NIELIT Skill Development courses are offered all around the country and IETE having a network throughout the nation can facilitate in expanding its operations. The MoU between the two entities was signed to collaborate with ISFs and Organizational Members to become official Online Examination Centres. The aim is to foster mutual interest of exploring and escalating our operations. We had established Centre of Excellence of IETE-NIELIT at Noida and Bangalore Centres. An MOU was also signed between IETE and IEEE on 20 Aug 2023, after 17 years gap, for technical collaboration. The Presidents of both the Professional bodies met and had a productive conversation on how the two Institutions can promote their mutual interests with collaboration and association.

On the IETE University front too, we are getting the positive indication. The honourable

Chief Minister of Manipur favorably reacted to IETE's proposal for 25 acres of land to build IETE University in Imphal. A high level committee comprising of Governing Council Members, Past Presidents and other experts under the Chairmanship of Dr K Jayasankar, Vice President IETE was constituted to provide necessary insights and follow-ups.

All the stakeholders' passion to progress the country's primary professional body makes it even more significant. IETE wouldn't have been at this standing and stature without the wisdom of our founders and the dedication of our members, who steer the organization in the correct path and help it grow through connections in the professional community. I appreciate everyone who has helped IETE thrive, from the Governing Council to the Centre Chairpersons and the Executive Committee of the centres/sub-centres. I'd like to appreciate the efforts put in by IETE Noida Centre, led by Centre Chairman Colonel (Dr) Bipin Pandey, to foster connections with IILM University Gurugram, Sharda University, Greater Noida, and Galgotias University, Greater Noida through a variety of collaborative endeavors and for getting approved Diploma Course in Cyber Security.

To showcase the potential of IETE to a broader crowd, we put up a stall at Broadcast Engineering Society's Expo, BES 2023 hosted in Pragati Maidan in February 2023. We extend our gratitude to Hony Treasurer, Shri Sunil, BES's President, for providing us with a complimentary stall. We displayed our journals, books, and membership forms against a backdrop of creatively designed display banners. We received an overwhelming response from the visitors. The stall was also visited by Secretary DoT and many other senior

government officials. IETE also set up a stall at the International Conference (MAPCON-2022), which was organized by IEEE MTT-S and IEEE AP-S at Bangalore from 13-15 Dec'22. IETE President was invited as a Keynote Speaker. A presentation on IETE activities was delivered by President IETE, Prof (Dr) V Gunasekhar Reddy, Vice Presidents, Dr K Jaya Sankar, Dr Baswaraj Gadgay & Hony Treasurer Shri Sunil.

We had conducted IETE Advisory Committee meeting under the Chairmanship of Pro.K.K.Agarwal, Past president at IEIE HQ, New Delhi on 20 Aug 2023 with the participation of Past Presidents, DFs, Council Members, Ex Council members around Delhi in physical mode and Past Presidents, DFs, Council Members, Ex Council members, Centr and sub center Chairpersons across the Country in online Mode. The members attended in this programme indicated several measures for the IETE Image building, Membership growth and IETE Publications growth.

All these accomplishments in the last one year wouldn't have been possible without the dedicated efforts of the IETE HQ staff. To acknowledge and appreciate the untiring efforts, the Staff Promotion & Recruitment Committee recommended promotion and increment to all staff of HQ which was awaited over ten years.

IETE has many different ways to keep up with the mind-boggling technical advances that academia and industry are making thanks to a good policy ecosystem. Information and communication technologies are at the heart of IETE's mission, and the group has 1.25 lakh members spread across 63 centres, sub-centres, ISFs, and PACs. IETE is moving forward with full confidence. Our endeavour

is to put more emphasis on the MoU with IEEE for mutual cooperation, helping start-ups in the area of data analytics, forming 11 subcommittees to focus on specific future goals of IETE through online discussions, setting up a digital university, advising scholars on how to write good manuscripts, and getting rid of the backlog of accepted articles by taking some unusual steps.

The objective of the convention is to focus on achieving a rural digital India and how 5G will serve as the engine that will allow rural India to have access to the same amenities and possibilities as urban India. I believe the convention will turn out to be a grand success and recommendations generated will assist our Government to develop an effective roadmap towards accomplishment of this national mission.

MEMBERSHIP ACTIVITIES

One of our primary focus areas is to enhance our membership. Collective efforts by the HQs and centres/sub-centres are being made to augment IETE's membership strength. IETE's mission has always been to reach the unreached and to extend its ambit even to the remotest and inaccessible areas. We aspire to bring together all energetic bright engineers and scientists under one umbrella i.e. IETE, to promote research and academic Endeavour, contributing to Nation's Scientific and technical growth. Special Discounts/concessions were given on the membership fee during the year to captivate Professionals. At present also the G20 discount of 25% is in force till 30th Sep 2023 on all categories of Life Membership. We are approaching all ISF colleges, those who were our members in the past with a request to revive their membership and those who are on roll with us currently to add more members to the Forum. We are also endeavoring to enhance our Organizational Membership. Colleges, Institutions and Organizations are being approached to enroll as IETE Org members. We are also trying to further enhance the quality of service we provide to our members by developing new strategies and policies so as to retain current members and to win back lapsed members.

Corporate Member Data Updation

One of the major activities Membership Section at IETE HQ is engrossed with at present is the corporate data purification work. All members who do not have their complete communication details in our database are being contacted through email or mobile or Post to their address, whatsoever is available in our database, with a request to mail their updated communication details. There have been approx 3900 cases where the mails are bouncing back from the members. These members are being contacted individually on their registered mobile no. and their correct updated email id is being sought. All members for whom we do not have any mobile no. or have incorrect mobile no. in our records are being approached via email and those for whom we do not have email id or have incorrect email id are being approached telephonically to get their correct/updated details. Calling up senior members and assisting them in updating their details. Letters have also been posted to senior members, who are 90 years and above in age, for whom we have only Correspondence/Postal Address in our records requesting them to send their email and mobile no. And we are pleased to see that response in large numbers is being received from the members and our efforts are indeed turning to be fruitful. Furthermore, while approaching the senior members several cases of demise are also coming into our notice. A mail/message from the deceased member's family is sought and their record is deleted from the database.

CENTRES/SUB-CENTRES

As always, this year too, some of our Centres performed excellent; however, others

maintained a little low profile. I appeal to the Executive Committee of all such centres/sub-centres to speed up and put in more intense efforts towards Membership growth and undertake more activities with a view to generate revenue. Total membership of IETE-Zone/Centre wise and new enrolment details are given elsewhere in this report.

UPGRADATION OF IETE GULBARGA SUB-CENTRE TO KALABURAGI CENTRE

During the closing ceremony, Dr S Arumuga Perumal, chairman of the Nagercoil PAC, inaugurated the in-house training and distributed completion certificates.

Prof Gunasekhar Reddy, President IETE; Shri Sunil, Honorary Treasurer met the Chairman Australia Shri Atul Garg and discussed the strengthening of IETE's activities on overseas terrain and exchanged their viewpoint.

PUBLICATIONS

IETE Publications spearheaded a number of initiatives during the year to grapple with daunting issues.

The high impact factor of our journals has resulted in a significant increase in the number of papers being submitted for publication from various regions like the Ethiopia, Germany, United States, Bangladesh, Brazil, Canada, China, Columbia, Finland, besides India. This is the geography of submissions for the past few years. This annual submission rate has already exceeded 3000 manuscripts.

Our response to this monumental challenge was two-fold: converting *IETE Journal of Research* (JR) from bimonthly to monthly, and increasing the number of articles per issue of JR from 20 to 70! This innovative idea was conceived by the Editor-in-Chief (IETEJR), who also appointed two Deputy EICs and substantially increased the number of Editors and Reviewers. This gave Editors more options when selecting Reviewers and relieved Reviewers who are overburdened with pressing academic obligations. On the one hand, these changes will eliminate the embarrassing backlog of unpublished articles, and on the other, they will make it possible for authors to receive a decision regarding their submissions within a reasonable amount of time.

Prof Arun Kumar and Prof Ranjan K Mallik of Indian Institute of Technology, New Delhi are the two Deputy Editors-in-Chief to assume the honorary responsibility for assisting EIC, **Prof Shibani K Koul, Emeritus Professor, IIT Delhi**, for *IETE Journal of Research* (IETE JR). Both are assiduously performing their tasks exceeding our expectations.

IETE Journal of Education is now being mentored by **Prof Raj Senani**, Honorary Professor of Netaji Subhash University of Technology, after Prof PV Ananda Mohan relinquished the charge in December 2022. The journal has seen considerable increase in not only the number of contributions from renowned experts but also broadened the spread of topics covered.

Prof Jagadesh Kumar Mamidala, Chairman, University Grant Commission continues to provide his sterling guidance for *IETE Technical Review*. We appreciate him providing his full attention to the journal despite his busy official schedule.

The increased international recognition of the *IETE Journal of Research* has resulted in yet another accomplishment of which we can be rightly proud. The number of proposed new Supplement Issues has increased significantly. Since these are online, open-access issues, proposals are taken further only once authors confirm payment of the required Article Processing Charges (APC) Fee. This pattern not only reflects the many developments in the ICT field, but it also shows that our publications are effective at providing a reliable platform in the furtherance of scholars' professional targets.

Following the suggestions of Distinguished Fellow, Professor SC Dutta Roy for operational improvements, printed articles are now

grouped into nine domains: Communications, Electromagnetics, Optoelectronics, Computers & Computing, Control Engineering, Electronics Circuits & Devices, Instrumentation & Measurements, Medical Electronics, and Power Electronics. In addition, the papers will be organized alphabetically and categorised as either ‘Review’, ‘Research’, or ‘Invited Article’ to aid the readers’ selection.

IETE and Taylor and Francis, England, a co-publisher, work together symbiotically to promote professional development that adheres to ethical norms. Particularly, contributions are subject to the Similarity Check, and authors are informed as necessary. The Scholar One system additionally has been given several brand-new functions that simplify processing and sorting.

An upward trend in overall satisfaction with the reviewing process and the Author survey can be seen between 2020 and 2022 for IETE journals.

MoUs Renewed:

With T&F, IETE has extended their Memorandum of Understanding for another three years, from Jan 2024 to Dec 2026.

In addition, IETE and IEEE reinforced their

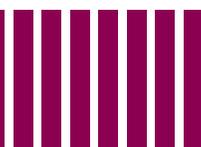

previous agreement to promote each other’s activities, programmes, and publications starting on **August 20, 2023 to Aug 20, 2026**. Through this memorandum of Understanding, possible, collaboration in the areas of membership, publications, technical meetings, and various joint activities will be promoted.

The parties have agreed to number of joint activities in reciprocity, like submission of papers in publications, subscription to publications, affiliate memberships, cooperation in mutual professional growth, publishing announcements in one’s publications, provision of speakers for talks and seminars, publicity of websites, availability of web based instructional modules to each other members on terms and conditions.

IETE AWARDS

Through its annual/biannual awards, IETE recognizes the outstanding achievements of its members and other professionals in the domains of electronics, telecommunications, computers, information technology, and engineering-related professions. These honors and recognitions are critical in enhancing the institution's profile and attaining its objectives. IETE confers 30 (thirty) Main Awards to individual members for outstanding achievements in the specified categories, 08 (eight) corporate awards to industry/organizations for outstanding performance, 08 (eight) awards to authors for their best technical/research articles published in IETE journals during the calendar year, and academic awards to IETE student members for outstanding achievements in the specified categories. Some of these are biennial, which

are not announced during dormant years.

To make the present process for selecting Awardees for IETE Awards more transparent, fair, and systematic, a "Jury of Experts" has been established for each award. This Jury panel is comprised of five or more subject matter experts from prestigious Institutions/Universities/Engineering Organizations who are chosen based on their subject matter expertise, academic/research experience, and managerial background. The Jury considers each award application in relation to its criteria and makes impartial recommendations to the Board of Awards regarding the selection of nominees for each award.

The nominations forms for IETE Main and IETE Corporate Awards are regularly reviewed to incorporate transparent, fair and impartial procedures. The Board of Awards (BoA) and the Jury experts of the relevant panel evaluate the nominations received and give their independent recommendations in favour of outstanding nominees. Thereafter the recommendations of the Board of Awards (BoA) and the Jury members are recorded and processed and ratified by the IETE Governing Council. Based on the merit, an awardee is selected for recognition of excellence in the award category. Lectures by awardees are organized at IETE Centres nearest to the location of awardee.

To give wider publicity to attract good response to IETE Awards, "Call for Nominations" is published in Nov-Dec and Jan-Feb issues of IETE Journal of Research and IETE Technical Review. In addition, brochures and "Call for Nominations" for IETE Main Awards and IETE Corporate Awards are sent to Centres/Sub-Centres and made available on IETE Website.

For more publicity, a one-page advertisement about the different IETE Awards is also published in publications such as ELCINA magazine. It gives us great pleasure to report that this year IETE has received a record number of nominations.

Independent Auditor's Report

The Members

Governing Council of

The Institution of Electronics and Telecommunication Engineers

2, Institutional Area, Lodi Road New Delhi-110 003

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of the **Institution of Electronics and Telecommunication Engineers** ("the Institute") which comprises the Balance Sheet as at 31 March 2023 and the Statement of Income & Expenditure for the year ended 31 March 2023, which incorporated the financial statements of the Headquarter audited by us and 45 Centers audited by the other auditors and 3 Centers (unaudited) as certified by the management and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Institute in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Matter of Emphasis:

- (a) The uniform accounting policies has not been followed by all the Centers regarding accounting of Depreciation.
- (b) Some Centers do not have proper records showing full particulars including details and situation of fixed assets and also there is no practice of Physical Verification of the Fixed Assets undertaken by the Management during the year under the audit.
- (c) Some Centers do not have proper accounting of consumption of Inventory and it is also reported that the inventories are not physically verified.
- (d) Upon going through the Audit reports provided by the Auditors of the Centers, some discrepancies related to accounting, booking of income and expenses, reconciliation of Bank Accounts and other Current Assets are reported, which may impact the Income and Expenditure Account as well as reporting of assets/liabilities.
- (e) The entity having total 63 centers but we have received only 45 centers out of these 3 centers were unaudited and remaining 15 centers not received and mention as below: -

Qualified Opinion

According to the information and explanation given to us and based on our audit material, we want to draw members attention to following points:-

Basis for Qualified Opinion

We hereby Qualify our report with respect to the following points :-

1. We have not received financials of 15 centers due to which we have not incorporated in the financials of the entity.
2. Many of the centers had not followed proper accounting method which does not gives true and fair views.
3. Grant given by head office to various centers subject to reconciliation.
4. TDS of the multiple previous years has not been adjusted in the books. Current year TDS is subject to reconciliation.
5. We observe that there are differences in opening written down value of assets.
6. Head office Loan balances are subject to reconciliation.

On the basis of above-mentioned points, we conclude that the financial statement does not gives true and fair view.
